Resume

Solid Background and strong knowledge in web development software including PHP, HTML/CSS, JavaScript, SQL languages as well as frameworks like Laravel, ES6, ReactJs, React Native, Redux, Vuejs, Vuex, Next, Nuxt. Skilled in working with database management tools such as MySQL, MSSql, Postgres and MongoDB. Capable of configuring with Linux servers from scratch in different flavors as CentOs, Ubuntu, Amazon AMI.

I am capable of building an entire SAAS from scratch in average of 4 months. I use Stripe for payment and subscription process. I like to implement the Billing Customer Portal in my projects in order to offer more flexibility to the final user regarding all about subscriptions, payments, credit card info and more.

Experience in Laravel ecosystem from 5.4 version til last one including Laravel Dusk, Laravel Forge, Livewire, alpinejs.

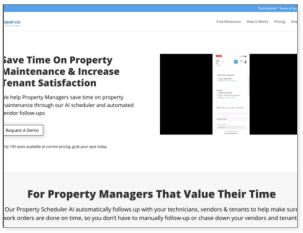
I have experience with Shopify public/private apps. I am very familiar with Shopify Polaris design and React elements. Authentication with Oauth2 and Node/NextJS apps. Consuming shopify info through Rest API or GraphQl and Apollo for React.

I have my own MacBook Pro 2022 and high speed internet connection with 200MB optical fiber.

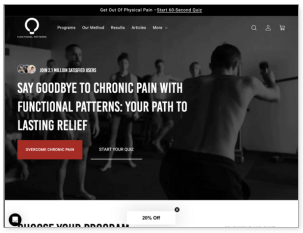
Portfolio

These are just some examples of my work.

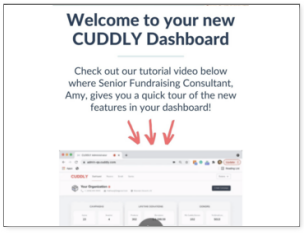
SAAS - Laravel, Vue, Tailwi…



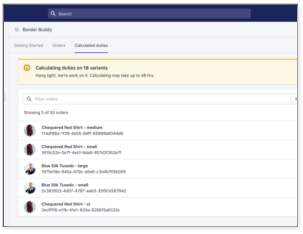
Laravel Saas



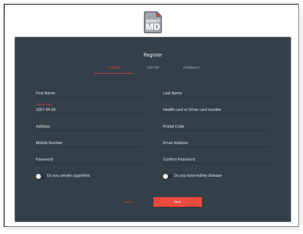
Shopify + Laravel



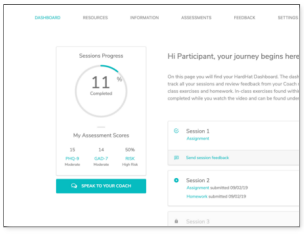
Cuddly Sar's Dashboard



Shopify React|Polaris App

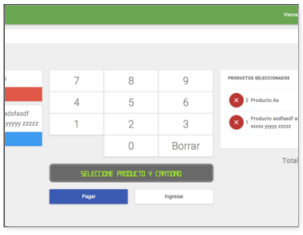


Laravel Medical App



Royal Ottawa University

React Native App



Laravel sales point

Skills
